

*Special Edition SCPOR SCOOP for March 20, 2017:
Announcing SCPOR's new Executive Director*

Helen Kenyon

The SCPOR team is delighted to announce that Helen Kenyon has joined us as Executive Director.

Helen Kenyon comes to us originally from England. She graduated with a BSc in Applied Chemistry from the University of Greenwich and worked for several pharmaceutical companies, progressing her career from sales representative via international projects to healthcare management in areas of post-trial/pre-licensing and government affairs. Along the way, she attained a Master's in Education from Liverpool and several management qualifications from Harvard. For the last 11 years, Helen has worked in a variety of leadership positions in Alberta health care, including Zone Clinical Department Manager of Internal Medicine for Alberta Health Services and in two Primary Care Networks, one in rural and one in urban Alberta as Executive Director.

Helen is a culture junkie and loves music, the arts, and travel. She enjoys hiking with her husband and her two Barbets (French water dogs).

Helen wasted no time rolling up her sleeves and getting to work. Here she is in a team meeting with SCPOR staff. You can reach Helen at helen.kenyon@usask.ca or (306) 966-7256.

Our mailing address is:

Room 208, 1121 College Drive

Saskatoon, SK S7N 0W3
