

# SCPOR Saskatchewan Centre for Patient-Oriented Research

## Foundations in Patient-Oriented Research

Hosted by the Saskatchewan Centre for Patient Oriented Research

To register: visit [scpor.ca](http://scpor.ca) < News & Events page – scroll down to the calendar and click on the module you wish to register for.

### Course Description:

This course is designed to give patients a foundational understanding of the research process. It is equally intended to help equip patients, researchers and other stakeholders (i.e., health care professionals and system decision-makers) with the skills necessary to engage meaningfully in a variety of roles, including: governance, peer review or other committee work, priority-setting, and the conduct of patient-oriented research and to foster the attitudes essential to the formation and development of genuine partnerships.

The course is intended to enable participants to:

- acquire foundational knowledge about health research to allow them to become full-fledged members of a research team;
- build mutually beneficial partnerships for conducting patient oriented research; and
- work as a team to carry-out patient-oriented research and produce high-quality scientific knowledge in a given health-related field.

### Participants:

This program was created to support patients, researchers, health –care providers and health-care decision-makers interested in or engaged in patient oriented research. The information may not be new to all individuals depending on their background however the co-learning opportunity seeks to help individuals see how their knowledge and experience differs from other individuals. The intent is that this awareness will help them as they engage in patient- oriented research by identify where they may need to coach/develop other team member’s knowledge about an area or topic. *Patients, principal investigators and students/trainees working on a SCPOR affiliated patient oriented research team are required to attend the training sessions.*

### Training Dates:

The training will be offered in Saskatchewan by the Patient Engagement Platform of the Saskatchewan Centre for Patient Oriented Research. Dates will be scheduled monthly. In the event that the dates below do not work with your calendar or personal needs, please contact Malori Keller ([mkeller@hqc.sk.ca](mailto:mkeller@hqc.sk.ca); (306) 668-8810 Ext 156) to determine alternate arrangements.

#### Module 1 – Foundations in Patient Oriented Research

Sept 20 0830-1430 (Saskatoon)

Sept 29 0830-1430 (Prince Albert)

Oct 24 8:30-14:30 (Regina)

#### Module 2 Fundamentals of Health Research in Canada

Sept 20 1445-1645 (Saskatoon)

Sept 29 1445-1645 (Prince Albert)

Oct 24 14:30-16:45 (Regina)

#### Module 3 – Building Partnerships & Consolidating Teams

The module is best suited for teams who are working on or creating a patient oriented research project. Please contact Malori Keller for more information or to arrange a date for your team. ([mkeller@hqc.sk.ca](mailto:mkeller@hqc.sk.ca))
